Officer Here Soon to Muster
Them in State
Militia

DUFFEY IS CAPTAIN

Most of Members Served Overseas
During World War—First Drill of
New Company in Armory.

The old Alexandria Light Infantry was reorganized last night at a meeting of the fifty men comprising the new company, held in the Armory.

It is expected that during the coming week a mustering officer will be in this city for the purpose of mustering the men into the state militia.

The new company will hold its first drill in the Armory next Monday night.

Officers chosen follow: Louis N. Duffey, captain; James E. Ludlow, first lieutenant; R. M. Hancock, second lieutenant, and John B. Arnold, first sergeant.

All of the newly elected officers are seasoned veterans of the world war, having served overseas. Capt. Duffey was formerly a lieutenant in the old Alexandria Light Infantry and served fourteen months overseas as a member of the 116th Infantry, and First Lieut. Ludlow served with the Rainbow Division, and Second Lieut. Hancock served overseas as a lieutenant. Sergt. Arnold was formerly a sergeant in the old A. L. I., and served overseas with Company L, 116th Infantry.

ST. PAUL'S LEADS THUS FAR

In Contest of Sunday Schools Eight
Show Average Attendance of
1212

St. Paul's church leads in the first report made of the Y. M. C. A. Sunday school attendance campaign begun Sunday, June 6, in all of the Sunday schools of the city. That is, St. Paul's church leads as far as the report is completed. All of the schools have their reports in but Christ Church and theirs will be in the next week's report.

Eight schools reporting shows an average attendance for the first four months of the year of 1212, or an attendance of 162 for each school. However the first two Sundays of June this average jumped to 208 per school, an increase of 37 per cent. The Sunday schools scarcely expect to maintain this large per centage of increase through the hot months of the summer but already steps are being taken to insure the greatest Sunday school attendance of any summer in the history of the city.

The smallest percentage basis reported was St. Paul's with 35 as the 100 per cent, while the First Baptist reported the largest, 351 as the basis from which to compute their record. Grace church starts out with the smallest record of attendance for the two Sundays of June, with 11.5 per cent as a beginner, while St. Paul's, as stated above leads with 174 per cent.

The summary: Church, per cent, present record—Saint Paul's 65 per cent, St. Paul's 174 per cent; First Baptist 351 per cent, First Baptist 144.5 per cent; M. E. Church, South 312 per cent, M. E. Church South, 136.5 per cent; Second Baptist 93 per cent, Second Baptist, 136.5 per cent; Methodist Protestant, 75 per cent, Methodist Protestant, 135 per cent; Trinity M. E. 76, Trinity M. E. 128.5 per cent; Second Presbyterian 135 per cent; Second Presbyterian, 126 per cent; Grace, 105 per cent; Grace, 111.5 per cent.

TO RECORD VIEWS ON ST. MARY'S ACADEMY LABOR PRINCIPLES TO HOLD CLASS NIGHT

Chamber of Commerce To
Vote on Total of
Twelve

PREPARED BY U. S. C. C.

First Referendum Prepared by Washington Headquarters of National Chamber of Commerce

Alexandria business men, as represented in the Chamber of Commerce, will record their views soon on twelve important labor principles drawn up by a special committee of the Chamber of Commerce of the United States. The declaration of principles constitutes the thirty-first referendum vote taken by the National Chamber. More than 1,300 trade and commercial organizations, members of the national body, are entitled to vote.

The local organization has received from the National Chamber also a referendum pamphlet carrying the recommendations of another committee that measures should be taken to prevent public utilities employees from striking.

The National Chamber's policies are determined as a result of these referenda, which are laid before the government departments and before Congress as representing the consensus of view of business interests throughout the country on vital questions.

The first referendum was prepared by the Washington headquarters of the National Chamber after study by a special committee which was appointed after the close of the President's First Industrial Conference to consider the principles presented by the employer's group in the conference. The committee states its belief in the following principles:

Any person possesses the right to engage in any lawful business or occupation, and to enter individually or collectively into any lawful contract, either as employer or employee. These rights are subject to limitation only through a valid exercise of public authority.

The right of open shop operation, that is, the right of employer and employee to enter into and determine the conditions of employment relations with each other, is an essential part of the individual right of contract possessed by each of the parties.

All men possess the equal right to associate voluntarily for the accomplishment of lawful purposes by lawful means. The association of men, whether employers, employees or others, for collective action or dealing, confers no authority over, and must not deny any right of, those who do not desire to act or deal with them.

The public welfare, the protection of the individual and employment relations require that associations or combinations of employers or employees, or both, must equally be subject to the authority of the State and legally responsible to others and that of their agents.

To develop with due regard for the health, safety and well-being of the individual, the required output of industry is the common social obligation of all engaged therein. The restriction of productive effort or of output by either employer or employee for the purpose of creating an artificial scarcity of the product or of labor is an injury to society.

The wage of labor must come out

SENATOR GLASS AND PRESIDENCY

Enthusiasm Over News McAdoo Forces Will Support Virginian

PROUD OF HIS RECORD

Senator Is Speeding Across the Continent to Attend National Committee Meeting.

Richmond, June 19.—Quick rise in the stock of Senator Carter Glass as the standard bearer of the Democratic party in the presidential race this fall followed the withdrawal of former Secretary of the Treasury W. G. McAdoo as a candidate, and the announced intention of his friends to throw their support to Senator Glass, aroused intense enthusiasm among Virginia Democrats when they heard the news last night.

Governor Davis, when apprised of the retirement of Mr. McAdoo as a possibility and its immediate effect on Senator Glass' chances, expressed his gratification at the good news and predicted the nomination of the Virginia Senator as the Democratic candidate at San Francisco.

Mr. Glass, the Governor declared, will appeal to both capital and labor and to the great agricultural interests of the country. "He will make a splendid standard bearer for the Democracy," he said, "and will lead us to victory."

Colonel Rever A. James of Danville, chairman of the State Democratic Committee and a delegate at large of San Francisco, when told of the development by long-distance telephone, said: "Senator Glass would make an able President. The Virginia delegation will do everything in its power to see that he is made the standard bearer of the party."

Representative Flood, one of Virginia's four delegates at large to San Francisco convention, in a statement, said:

"Mr. McAdoo's withdrawal adds greatly to the strength of Senator Glass, and the Virginia delegation will push Mr. Glass' chances earnestly and enthusiastically in a great hope of success."

Store Burglarized

Thieves Make Haul at Place of Fred Ayers on King Street.

Thieves last night entered the store of Frederick Ayers, 324 King street, and looted the place of one boy's bicycle, flash lights, knives, rifles, pistols, and a number of other articles, including several things that had been left to be repaired.

Entrance to the place was affected through a rear window. The burglar removed a pane of glass in the rear window after sending a small garage in the rear and upon entering the workshop moved a stove pipe in order to get through the transom to the main store.

The robbery was discovered by the police about 6 o'clock this morning and Mr. Ayers notified.

The only clew left by the burglar is a straight stem pipe which was found behind the counter beside some pistols. In the opinion of Mr. Ayers the burglar or burglars were scared off before they succeeded in escaping with their loot. They overlooked many valuable new pistols and other articles which they had placed on the floor preparatory to moving them including several boxes of cartridges. The bicycle stolen is valued at \$52.50. The total value of the articles stolen will be thought to be several hundred dollars. It is believed that the robbery was committed by boys.

OBEDIENCE

Military training in the schools was commended by the convention of the American Federation of Labor in Montreal this week, as "the first step in the development of mechanical and unquestioning obedience which results in the killing of initiative."

While the actual need of compulsory military training is a mooted question, the words used above are suggestive. "Mechanical and unquestioning obedience" seems to be the word upon which the representatives of the labor movement are agreed.

It should be apparent to all that without obedience and discipline it would be impossible to conduct the affairs of this world. It is one of the laws of nature, and those who would destroy it or attempt to impair it in any way will, sooner or later, find themselves arrayed against the most High.

During the flooding in Paris in the days of the Commune a printer of the Jacobin class mounted a soap box and said substantially: "Should I reach the Christian's heaven and find the Almighty an adulterer, I will plant cannon in the celestial streets and bombard the throne eternal."

Many years ago we picked from a junk pile in Alexandria a volume which never had been read, as it was intact as when it left the bookseller's shelves. The title was of four letters "Duty," only this and nothing more. It was from the pen of a famous English scholar (Samuel Smiles). We often peruse this volume which was consigned to the dump by its owner and find it a pearl of great price, especially in these days when the great mass of humanity are bent upon doing as suit themselves.

The wise man (supposed to be Solomon) in the Book of Ecclesiastes tells us that "whosoever breaketh through a wall shall be bitten by a serpent." He uses a figure of speech easily understood in the days of the Kingdom of Israel. The robber who broke through a wall, especially at night, was liable to unearth a serpent which had taken up its abode in an interstice. Hence any organization which attempts to break down a law of nature is sowing the wind and will reap the whirlwind.

INSPIRATION OF BOOKS

The American Library Association is endeavoring to ascertain what book or books have appealed to the great of the present age. This attempt has at times been made by newspapers, but the result has shown that comparatively few have reached prominence in this world have had their interest upon the same literature.

What is food for one is insipid to another. What is read in Wilkie Collins "Moonstone" of an individual except "Robinson Crusoe," who never read but one book—Robinson Crusoe. Little did all his inspiration from that product of DeFoe, finding something in it to encourage him in every trouble which assailed him.

Selecting books may be likened to selecting dishes on an elaborate menu card. One man orders one dish, another something else.

Many have read the mental and physical benefits that come from literary production which may be enjoyed later in life.

Charles Dickens is of his distaste for certain books, regarding as ethics by others, and explains his aversion to such books by the fact that he was forced to peruse them too early in life.

De gustibus non est disputandum (it is useless to argue against taste) is an old observation, but it is always in order. Charles Dickens had that little when he began to write his novels. But he had read closely such books as came within his reach and had thoroughly digested them. He also possessed in a marked degree the power of application.

Many years ago a Washington newspaper invited its readers to send in the names of the two best books in the world. The Bible was generally placed first by those who

accepted the invitation. But there was a divergence of opinion on the second, many placing Boccaccio's "Decameron" second, while numbers of others preferred Hawthorne's "Scarlet Letter."

The library of Abraham Lincoln in this early year was composed of three books—the Bible, Bunyan's "Pilgrim's Progress" and Aesop's Fables.

GOMPERTS RE-ELECTED

Delegates at Montreal Convention
Grand Chairman Oration

Montreal, Quebec, June 19.—Samuel Gomper, veteran leader of organized labor, was re-elected president of the American Federation of Labor at its annual convention here yesterday. No one ran against Gomper and his election was unanimous except for one vote.

It was cast by Delegate James A. Duncan, of Seattle.

Gomper was re-elected practically unanimously as the convention indicated yesterday when the delegates joined in giving him a thunderous ovation.

"Everybody is for him, strong," said President John L. Lewis of the United Mine Workers.

The question of the election of eight vice presidents was expected to precipitate a hot fight in the convention. This also was to be taken up by the executive council.

Gomper has been head of the federation for thirty-eight years.

Information of Priceless Value to Every Alexandria Citizen
How to act in an emergency is knowledge of inestimable worth, and this is particularly true of the diseases and ills of the human body. If you suffer with kidney backache, urinary disorders, or any form of kidney trouble, the advice contained in the following statement should add a valuable asset to your store of knowledge. What could be more convincing proof of the efficiency of Doan's Kidney Pills than the statement of a Alexandria citizen who used them and who publicly tells of the benefit derived?
Guy Pettit, railroad engineer, 114 Commerce St., Alexandria, says: "I have used Doan's Kidney Pills off and on for a number of years and they have done me so much good I wouldn't be without them. I usually carry a box of Doan's with me because my kidneys are apt to get out of order. This is from the jarring of the engine. However I only have to use a few of Doan's Kidney Pills and I am not bothered any more."

AN ORDINANCE.

An Ordinance to amend an Ordinance, entitled an Ordinance empowering and instructing the Mayor of the City of Alexandria to execute a contract on behalf of the City Council of Alexandria with Edward E. Mandeville, his successors or assigns, in reference to the furnishing in this City of light, heat and power, by electricity, which was approved July 25, 1906.

Be it ordained by the City Council of Alexandria, Va.:

Section 1. That paragraph 4 of an Ordinance entitled an Ordinance empowering and instructing the Mayor of the City of Alexandria to execute a contract on behalf of the City Council of Alexandria with Edward E. Mandeville, his successors or assigns, in reference to the furnishing in this City of light, heat and power, by electricity, approved July 25, 1906, and reading as follows:

"The said contract shall further provide that the said Edward E. Mandeville, his successors or assigns, in consideration of the award to him of the electric lighting franchise, and in further consideration of the agreement as above set forth, shall furnish electric current for light, heat and power to all consumers in the City of Alexandria, who will pay for the same monthly, at a price not to exceed twelve (12) cents net per kilowatt for the first kilowatt and seven (7) cents net per kilowatt for each succeeding kilowatt," be amended and

re-enacted so as to read as follows: "The said contract, by and with the consent of the City Council of Alexandria, Va., and the Alexandria County Lighting Company, the successor of the said Edward E. Mandeville, shall be modified and reformed so as to provide that the rate for residential and commercial users in the City of Alexandria for electricity furnished by the Alexandria County Lighting Company shall be as follows:

First 5 kilowatt hours consumed per month.....\$1.00 (Which shall be the minimum bill.)

Next 300 kilowatt hours used per month..... .08 per K. W. H. Next 500 kilowatt hours used per month..... .07 per K. W. H. Next 800 kilowatt hours used per month..... .06 per K. W. H. All in excess of 1,605 K. W. H. per month..... .05 per K. W. H.

"On all bills paid within ten days of date of bill a cash discount shall be allowed of 5 per cent up to and including the first \$25 of the monthly bill, and 1 per cent on the balance.

"If, at any time after the passage of this Ordinance either party is dissatisfied with the rate as above fixed, and the said City Council and the said Alexandria County Lighting Company, its successors or assigns, cannot forthwith agree upon some other mutually satisfactory rate, the party dissatisfied may, upon ninety (90) days' notice in writing to the other party, call for an arbitration, whereupon said rate

shall be determined by arbitrators, one to be appointed by the City Council of Alexandria, one by the said Alexandria County Lighting Company, its successors or assigns, and the third (in case of a disagreement by said arbitrators) by the two so appointed; or, in the event of the two being unable within twenty (20) days after the date of the appointment of whichever of the two was last appointed, to agree upon a rate, or, failing that, to agree upon a third arbitrator, the third arbitrator shall be appointed by the then Judge of Corporation Court of the City of Alexandria, Va., and the determination as to rate of a majority of the three so chosen, shall be binding upon the parties hereto, their successors or assigns, until the rates shall again be changed by mutual consent, or by another arbitration.

Neither party shall be permitted to call for an arbitration until after the expiration of six months from the going into effect of the rate concerning which arbitration is desired. Any expense incurred for the compensation of such arbitrators shall be borne by the said City Council of Alexandria and the said Alexandria County Lighting Company, its successors or assigns, equally.

"That this contract be in force for one year from this date, June 1st, 1920, and then the original contract to be in force, unless otherwise changed by the City Council.

The Mayor of the City of Alexandria is hereby authorized and instructed to enter into a contract with the Alexandria County Lighting

Company, its successors or assigns, in order to put into effect the provisions of this ordinance. This ordinance shall be in force from its passage.

Passed the Common Council June 11, 1920.

In re Increased Rates of Alexandria County Lighting Company.

To the City Council of Alexandria, Alexandria, Virginia.

Gentlemen: Present conditions compel the Alexandria County Lighting Company to increase its rates for private lighting purposes. It is fixed more for street lighting is contemplated as this rate was satisfactorily adjusted between the Company and the City Council a few years ago under a price which was to run for ten (10) years from the date of the agreement.

The present rate for private lighting in operating and production costs was practically double that of the costs before the war. This added burden of expense, however, was borne by the Lighting Company and no increase in rates applied for, although the profit from lighting service was practically wiped out.

Coal, which constitutes practically seventy-five (75) per cent of the cost of producing electrical energy, has increased eighty-eight and three-tenths (88.3) per cent since the period immediately preceding the war, and is still going up. Other items entering into the cost of production have increased in like proportion.

The present rates for lighting in the City of Alexandria are:

First kilowatt hour consumed per month.....\$0.12 per K. W. H. Each additional kilowatt hour consumed per mo. 07 per K. W. H. Minimum monthly bill.....\$1.00

Cash discount on consumption under 400 K. W. H. per month—none. Cash discount on consumption of 400 K. W. H. or more per month—10 per cent.

The proposed rate for residential and commercial users in the City of Alexandria is:

First 5 kilowatt hours consumed per month.....\$1.00 (Which shall be the minimum monthly bill.)

Next 300 kilowatt hours used per month..... .08 per K. W. H. Next 500 kilowatt hours used per month..... .07 per K. W. H. Next 800 kilowatt hours used per month..... .06 per K. W. H. All in excess of 1,605 K. W. H. per month..... .05 per K. W. H.

On all bills paid within ten days of date of bill a cash discount will be allowed of 5 per cent on the first \$25 of the monthly bill, and 1 per cent on the balance.

It is only due to the fact that the new and modern equipment installed in the Company's plant is so highly efficient as to permit production of energy at a great deal lower cost, that the Company has been able to continue to furnish service up to this time, although the increasing cost of labor and material and the gradual decrease of war-time activities is so rapidly reducing the Company's earnings that not even a minimum rate of interest can be realized on the invested capital, let alone any funds for profits or the so necessary maintenance.

Were the original plant, with the slow speed and low efficiency machinery still in operation, it would have necessitated not one, but several increases in rates, not only during the war, but at the present time, to enable the Company to even meet operating costs.

The Lighting Company has been advised by its Counsel that, under the franchise granted to it by the City of Alexandria, the question of the increase of rates should be taken up directly with the City Council.

The Company will, therefore, greatly appreciate the reference of this matter to the proper Committee of the City Council and will be very glad to furnish such Committee with all the detailed information

desired, showing the fairness and necessity of the proposed increased rate.

As the matter is vital to the Company because of its rapidly shrinking income, it will greatly appreciate prompt action on the part of the City Council.

Very respectfully,

ALEXANDRIA COUNTY LIGHTING COMPANY.

By LEO P. HARLOW, Attorney.

TO RECORD VIEWS ON LABOR PRINCIPLES

(Continued from Page One)

of the product of industry and must be earned and measured by its contribution thereto. In order that the worker, in his own and the general interest, may develop his full productive capacity, and may thereby earn at least a wage sufficient to sustain him upon a proper standard of living, it is the duty of management to cooperate with him to secure continuous employment suited to his abilities, to furnish incentive and opportunity for improvement, to provide proper safeguards for his health and safety and to encourage him in all practicable and reasonable ways to increase the value of his productive effort.

The number of hours in the work day or week in which the maximum output consistent with the health and well-being of the individual can be maintained in a given industry should be ascertained by careful study and should never be exceeded, except in case of emergency, and one day of rest in seven, or its equivalent should be provided. The reduction in working hours below such economic limit, in order to secure greater leisure for the individual, should be made only with full understanding and acceptance of the fact that it involves a commensurate loss in the earning power of the workers, a limitation and a shortage of the output of the industry and an increase in the cost of the product, with all the necessary effect of these things upon the interests of the community and the nation.

Adequate means, satisfactory both to the employer and his employees and voluntarily agreed to by them, should be provided for the discussion and adjustment of employment relations and the just and prompt settlement of all disputes that arise in the course of industrial operation.

When, in the establishment or adjustment of employment relations, the employer and his employees do not deal individually but by mutual consent such dealing is conducted by either party through representatives it is proper for the other party to ask that these representatives shall not be chosen or controlled by, or in such dealing in any degree represent, any outside group or interest in the questions at issue.

The greatest measure of reward and well-being for both employer and employee and the full social value of this service must be sought in the successful conduct and full development of the particular industrial establishment in which they are associated. Intelligent and practical cooperation based upon a mutual recognition of this community of interest, constitutes the true basis of sound industrial relations.

The State is sovereign and cannot tolerate a divided allegiance on the part of its servants. While the right of government employees, national, state, or municipal, to be heard and to secure consideration and just treatment must be amply safeguarded, the community welfare demands that no combination to prevent or impair the operation of the government, or of any government function shall be permitted.

In public service activities, the public interest and well-being must be the paramount and controlling consideration. The power of regulation and protection exercised by the State over the corporation should properly extend to the employees in so far as may be necessary to insure the adequate, continuous and unimpaired operation of public utility service.

The second referendum submitted consists of two recommendations drafted by the Chamber's Committee on Public Utilities. These recommendations are that:

"Strikes by employees of all public service corporations, performing public service essential to the lives, health, well-being and comfort of the people should be explicitly prohibited by law.

"Suitable tribunals should be created by the law to adjudicate differences between employees of public service corporations and their employers, and the decisions of such tribunals should be final and binding upon both parties."

HELD WITHOUT BAIL
Companion of Dartmouth Student in Flight After Fatal Shooting Also Held

Hanover, N. H., June 18.—Robert T. Meads of La Grange, Ill., the Dartmouth College student whose liquor smuggling traffic is alleged to have led to his killing Henry E. Maroney of West Medford, Mass., a fellow student, early Wednesday, was a prisoner at the county jail at Woodsville yesterday, awaiting action by the Grand Jury on a charge of murder.

His companion in flight from the college, Crile Nicely Wise, of Akron, O., who returned to Hanover when Meads boarded the train for Boston on which he was captured, was held in the local jail as a material witness.

The college authorities had supplied bonds of \$1000 each for three other students held as witnesses. Howard W. Whittaker, of Somerville, Mass. Maroney's room mate, and companion in the escapade which cost him his life; Richard M. Hart, of Chicago, and James N. Chilcott, of Bangor, Me., who also were with Maroney prior to the shooting. No offer of bonds for Wise was made.

College authorities yesterday said that connection of Erwin T. Weis, of Alabama, with the case was due to a confusion of names and the Weis had no part in the events coupled with Maroney's killing or Meads' escape.

COMPTROLLER'S SALARY.
Labor Chief to Receive \$12,000 Annually in Future.

Montreal, June 18.—Despite the protest and desires of Mr. Gompers, the convention of the American Federation of Labor yesterday increased his salary as president from \$10,000 to \$12,000 a year.

In making an appeal to the delegates not to give him a raise, Mr. Gompers declared that "\$10,000 is all sufficient for a man living in the ordinary modes of life to satisfy him and his needs."

The salary of Secretary Frank Morrison also was increased from \$7,500 to \$10,000 a year. Organizers' wages were increased from \$48 to \$60 per week and their traveling allowance from \$6 to \$8 per day. This was declared necessary owing to the high cost of living.

Algeria produces great quantities of olive oil.

More Tire Mileage

THERE'S really only one way to get it. Buy a tire with more mileage built into it. That means extra quantities of high grade rubber and fabric—just what Star Tires do contain:—an extra ply of fabric that adds over 20% more strength to withstand shocks, loads and strains. More tread rubber, scientifically compounded to resist wear. Extra protection from rut cutting and curb chafing by thick side strips. Wider breaker strip and thicker pure gum cushion to protect the carcass from shocks and jolts. Tread and carcass an inseparable unit. Made so by a binder strip of special rubber. We have a full line of Star Fabric Tires. Any size you want. Star Cord Tires also. And Red Star Tubes. A phone call will bring you what you want.

RED STAR TUBES—Made of the finest pure rubber. Cured with antimony. Extra heavy—extra durable.
